

Make:NYC **Contest**

"Holiday Recycling"

First Prize: \$100

Second Prize: \$50

Third Prize: \$25

Contest Rules

- Create a new item/project/gizmo from holiday seasonal waste. Use wrapping paper, product cartons, lights, decorations, tree... anything you'd toss away once the season was over.
- You may use some non-seasonal items, but it must consist primarily of recycled goods.
- No perishable food items.
- Creations need to be well documented and the documentation must be made freely available.
- Judging criteria will be Most Creative.
- Creations are due into the next Make:NYC meeting, in late January -- date TBA.

Things you might want to consider:

- Make the item as useful as possible. Strictly decorative items won't score you many points.
- Don't celebrate much? We won't mind if you've bought some materials just for the contest.
- Have fun and enjoy your holiday, just don't let anyone toss out your ideas!

Bring your completed project to the January Make:NYC Meeting
